

# END OF LIFE NOTIFICATION

## MODEL LTC100

Dear Customer,

As part of our ongoing product development and product life cycle process, Prime Controls has decided the LTC100 has reached end of life. The LTC100 is a leak tester control component that works with legacy Hyde Park leak test control models MD2 and MD3. The Hyde Park MD2 and MD3 controls have been obsolete for many years, replaced by the Prime Controls MD30 TestAlert System. The MD30 TestAlert system has been in production since 2011. If the LTC100 is needed, Prime Controls recommends upgrading to the MD30 TestAlert System in the near future, as the end of sale date is quickly approaching.

At this time, we are announcing the end of life plan for the products listed below:

DISCONTINUED PRODUCTS	RECOMMENDED REPLACEMENT
LTC100	MD30 TestAlert System

If you would like to make final purchases of the discontinued products, please place an order before the **END OF SALE** date below. Prime Controls reserves the right to limit and allocate quantities in the event demand exceeds available supply.

MODEL #	END OF LIFE ANNOUNCEMENT	END OF SALE DATE	END OF SERVICE DATE	EXTENDED SERVICE PERIOD
LTC100	8/30/23	12/31/23	12/31/28	N/A

Prime Controls will provide technical support and repair services until the End of Service date. If service is not possible, Prime Controls will offer an alternative product of similar or greater functionality. Please visit our website for a full overview of our End of Life policy.

Thank you for your business. If we can help you with any questions or provide additional details, please contact us at: +1.937.435.8659 or [vip@primecontrols.com](mailto:vip@primecontrols.com).
