

YOUR TESTER IS ONLY AS GOOD AS ITS CONTROL SYSTEM

A SMARTER WAY TO MANAGE
THREE-PIECE CAN LEAK TESTING

TestAlert

Upgrades three-piece can leak testers with today's technology. Designed to replace older, obsolete tester controls, such as the MD2, MD3 and MD20.

A COMPLETE SYSTEM INCLUDES:

- Control (Model MD30 *shown right*)
- HMI Display (Model MI100)
- Transducers (Model Series TD10)
- Timing Generator (Model TE200)
- Relay Bank (Model AC400) and Power Supply (Model PS503)
- Cables (Model Series CBL113, CBL130 and CBL140)

WHAT MAKES *TestAlert* THE SMARTER CHOICE FOR LEAK TESTING?

-  **A User-Friendly HMI:** Easy, Menu Driven Set-up and Navigation through a Full Color, Touch Screen Display
-  **Advanced Reporting Capabilities:** Pocket Diagnostics, Bad Pocket Seal Warning, Reject Verification, Last 10 Rejects Displayed.
-  **Detailed Error Messages:** Help Predict and Prevent Maintenance Issues
-  **Report Sharing Capabilities:** Data Can be E-Mailed or Saved to a USB for Analysis

-  **Absolute Pressure Values Displayed:** For Accurate Pressure Readings
-  **Eliminate Costly Downtime** by Scheduling Changes without Stopping Production
-  **Increase Productivity:** Easily Switch between three tester configurations without reprogramming the unit.
-  **Ethernet Capability**

TAKE THE TEST FOR YOURSELF
